

Loader Mount Square Bale Processor

GET A SQUARE DEAL UPFRONT

Sometimes having all your work ahead of you is a good thing.

The Boss I is a square bale processor that mounts on your skidsteer or tractor loader combining adaptability with accessibility. Now you can feed and bed in the tight spots that are nearly impossible to get to with a trail behind processor. From feeding to bedding, this hydraulically driven processor is ready to take charge.

Easy Scoop N' Go Loading

Bunker Feeding

Windrowing

Features

Dual top paddle rollers

The aggressive dual top paddle rollers make sure you get a consistent feed of the bale.

Adjustable chute

The variable position chute allows you to go from bedding, to feeding, to windrowing.

Optional third beater

This optional beater assists with the processing of 3 x 4 bales.

Skidsteer / Loader mount

A quick attach makes connections a breeze

Flail rotor

The Boss I has 12 flails to provide consistent processing performance.

Hydraulic drive

The adjustable hydraulic drive gives you total control of bale processing.

Specifications

- **Min hyd. flow:** 18 gpm
*for optimal spreading performance high flow is recommended
- **Weight:** 1200 lbs
- **Width:** 122"
- **Length:** 58"
- **Height:** 52"
- **Bale sizes:** 32" x 34" and 34" x 48", up to 96" long

The unique loader-mount design means you can raise the Boss I above gates and pens giving you greater control of where the bale ends up. The versatility of a loader mounted unit makes operating it easier and more comfortable. Because the Boss I is upfront, loading bales is quick and simple, just Scoop N' Go.

The Boss I handles mid size square bales up to 8 feet long. By simply adjusting the distribution chute your Boss I is now ready to go from bedding straw, to fence-line feeding, to filling bunkers, to windrowing large bales for rebaling.

Put hard work behind you and get a Boss I upfront.

BOSS II

***Leave it to
the BOSS.***

The BOSS II is the perfect tool for all of your Square bale processing needs. From bedding to feeding, the BOSS II can manage it all.

TUBE-LINE™
MANUFACTURING LTD.

BOSS II

Take command of your square bale processing needs with the BOSS II from Tubeline.

The BOSS II is the perfect tool for all of your square bale processing needs. From bedding to feeding, the BOSS II can manage it all.

The BOSS II is fully adjustable to fit 3'x3', 3'x4' and 4'x4' square bales, up to 8' long monsters. The adjustable distribution chute allows the same machine to bed livestock with bales of straw then feed into bunkers or windrows with only a quick adjustment. The adjustments don't stop there. The BOSS II is also equipped with adjustable cutting knives that help to further chop up bedding material for a finer and more consistent spread.

The hydraulic feed is also adjustable, allowing you to control the flow and speed of feeding. The flail roller is PTO-driven and adaptable to either 540 or 1000 RPMs, while the upper paddle roller is hydraulically controlled and also fully adjustable. The hydraulic self-loading forks allow you to load one bale and have another standing by ready to go.

Adjustable Distribution Chute

Top paddle roller

Adjustable cutting knives

Cut material as small as 4.5 inches (optional)

Adjustable Hydraulics

Belt Tensioner

Features

- **HP Required:** 80-180
- **Tire:** 11L15 8 ply
- **Weight:** 3860 lbs
- **Width:** 143"
- **Height:** 93"
- **Length:** 130"
- **PTO:** 540 or 1000 RPM

Whether you need a processor for bedding, feeding, or both, make an executive decision and leave it to the BOSS II for all your square bale processing needs.

AUTHORIZED DEALER

BALEBOSS 4

SQUARE BALE PROCESSOR

Providing increased capacity the Bale Boss 4 can carry up to four 4'x4'x9'. The bales are easily loaded with the hydraulic self loading deck. Raise the deck to spear your stack then lower it back into position. Equipped with dual apron chains the hydraulically driven drive system simultaneously powers two apron chains, ensuring that the bales glide across the deck and into the awaiting shredder.
