ESTATE TRIMMERS™ HAVE A FLYWHEEL INSTALLED ON THE LOWER END OF THE CRANKSHAFT TO MINIMIZE ROPE "SNAP BACK" UPON STARTING. WITHOUT THE APPROVED FLYWHEEL, THIS CAN BECOME A SEVERE PROBLEM, AND POSSIBLY CREATE A DANGEROUS SITUATION.

THE FLYWHEEL ALSO GIVES THE FACTORY RECOMMENDED INERTIA TO ALLOW YOUR ENGINE TO OPERATE SMOOTHLY WITHOUT DESTRUCTIVE LIFE SHORTENING VIBRATION. WITHOUT THE FLYWHEEL, IT IS LIKE STARTING YOUR LAWNMOWER WITH THE BLADE REMOVED, ANY MOWER TECH WILL TELL YOU NOT TO DO IT.

2 YEAR LIMITED WARRANTY
